

BANGARANG

# BANGARANG

*In Development*

*Currently Seeking Producing Partners*

BANGARANG is a riot of rap and rock telling the story of how Tinkerbell and a band of Lost Boys flee Neverland and its unbalanced, despotic leader Peter Pan. The story plays out in two ways: BANGARANG On Stage and BANGARANG The Hunt.

BANGARANG **On Stage** is a gig theatre event, tumbling in all directions with original live music and aerial performance. A high energy adventure taking a sharp look at current political topics, engaging its teen and twenties audience in an interactive narrative. Imagine a political rally meets a Kendrick Lamar hip hop gig and they run away with the circus. That's BANGARANG On Stage.

BANGARANG **The Hunt** allows an epic story to be told across social media platforms, websites and across the city. The Hunt is a narrative set in the Bangarang world that interweaves with the story of Bangarang On Stage. The Hunt addresses propaganda campaigns coming out of Neverland and asks the audience to find clues and join an online community tracing Peter Pan's lies. On each day of a Bangarang On Stage performance, the story arc of The Hunt syncs, disrupts and questions the On Stage play, creating a lively Reality Game as well as a unique show every single night.

Both stories are told from the point of view of those most damaged by furiously narcissistic leaders. This interactive story tumbles off the stage to involve its teen and twenties audience in the theatre, online and in real life through a fiercely loving story about the end of childhood.

## FEATURES

- **Part Stage, Part Site Specific Hunt/Adventure**
- **Featuring live music, physical theatre & aerial circus**
- **Especially for teenage and twenties audiences**
- **Engaging young adults politically**
